Personalized POS Solutions Backed by Expert Support

DCR POS offers innovative POS solutions powered by expert IT services, custom software development, and 24/7 support. With over six decades of experience and expertise, we deliver flexible, scalable systems designed to meet your needs. Trusted by thousands of businesses nationwide, we provide innovative, tailored solutions with exceptional service, helping grocers, restaurateurs, and retailers succeed.

Unmatched Results with DCR POS

Exceptional Around-the-Clock Support

We pride ourselves on delivering nationwide, 24/7 top-tier support to ensure your operations run smoothly, providing you with absolute reassurance.

Advanced POS Solutions

As a trusted provider of configurable and scalable POS hardware and software, we focus on enhancing operational efficiency and maximizing profitability.

Scalable In-House Customization

Our custom apps, scripts, and integrations are created in-house to deliver seamless solutions that evolve with your business needs for ultimate efficiency.

Continuous Premier Support

Our priority is to deliver exceptional POS support for every system we install, offering both remote and on-site assistance customized to your needs. Driven by your success, we build trust through reliable service and outstanding performance, ensuring your POS and critical business systems operate flawlessly.

POS Solutions That Propel Success

We specialize in custom POS solutions designed to fit the unique needs of grocery stores, restaurants, and retailers, enhancing customer experiences to create a more efficient, modern, and user-friendly shopping experience.

Grocery POS

Our all-in-one grocery POS system enhances efficiency, profitability, and engagement with loyalty programs, flexible shopping options, and real-time reporting.

Restaurant POS

Top integrations, omnichannel service, cloud tech, and user-friendly tools work together to streamline operations and improve customer experiences.

Retail POS

Support modernized omnichannel commerce, centralize retail operations, and drive engagement with a robust loyalty engine to meet needs and boost retention.

C-Store POS

Manage fuel operations and gain actionable insights with a solution that integrates pump control, promotions, and sitewide reporting, both in-store and fuel performance.

Self-Service

Achieve true omnichannel commerce with AI-driven shopper insights and digital promotions for a seamless, engaging, and loyalty-focused shopping experience.

Electronic Shelf Labels

Optimize efficiency with real-time price updates, reliable wireless infrastructure, customizable tag designs, and industry-leading battery life for lasting performance.

Managed IT Services for Maximum Performance

We simplify technology management with custom development that is precisely configured, fully secure, and seamlessly integrated into your infrastructure.

Secure Remote Access & Monitoring

Access your system securely, anytime and anywhere.

Managed Firewall

Secure your network and ensure PCI compliance.

Anti-Virus

Defend your investment against viruses and malware.

Cloud Backup Solutions

Safeguard your critical data and minimize downtime.

Secure Network Config/Setup

Trust our experts to set up your POS network securely.

Custom Scripts

Enhance your system's performance with custom scripts.

Data Recovery

When the unthinkable happens, we can help.

Cellular Failover Services

Minimize downtime and prevent costly disruptions.

Custom Development

We'll develop applications tailored to your needs.
